GEORGIA PEACH IN TEXAS (From the Augusta Newspapers)

"The jolly folk of the Lone Star State are so wrapped up in the land of the Blue Bonnets and look for beauty outside the boundaries of their beloved Texas. But when a golden haired Georgia Belle makes an appearance in their midst, Texans always sit up and take notice — for there's nothing they like more than shoveling a Georgia Peach with their special brand of Southern hospitality."

"So it is with Ruth Ann (Mrs. Milton B. Satcher), who with her attractive, young husband, is residing at Fort Sam Houston, Texas, while Lieut. Satcher serves a medical internship at Brooke Army Hospital."

"So charming was Ruth Ann when she and Milton attended a reception honoring new residents and interns at Sam Houston the other night that the photographer of the Public Information Office at Fort Sam Houston snapped a picture of the young couple as they were greeted by Brig. Gen. Stuart G. Smith, hospital commander and Mrs. Smith. With them at the time was Maj. Gen. William E. S. Shambora, Brooke Army Medical Center commander."

"Lieut. Satcher, the son of Mr. and Mrs. M. B. Satcher of Augusta, received his medical degree this year from the Medical College of the University of Georgia. His lovely wife is the former Miss Ruth Ann Waters, daughter of Mr. and Mrs. Loy Waters of Statesboro."

Mrs. Leroy Hayes and children, Marsha, Cissy, Larry and Roy spent Friday in Swainsboro with relatives.

Rattlesnakes find existence in Stilson community dangerous

By MRS. W. H. MORRIS

RATTLESNAKES SEEM PLENTIFUL AT STILSON. Rattlesnakes seem to be plentiful here. About two weeks ago Mr. and Mrs. Shurling saw one in the road near our house and Willie Gene Morris shot him with a shotgun. This snake had seven rattles. Saturday, while enroute to the house to go swimming, Harmon Morris killed another large rattlesnake about half a mile from our house on C. W. Lee's place. At approximately the same time this snake was being killed, Horace Attaway was about a mile further down the same river road and he was killing another rattlesnake about the same size of the one Harmon Morris killed. Both snakes had been measured about four feet long, and about eight rattles and after Harmon Morris finished killing his snake he only had four rattles left on him. They were knocked off while the snake was being beaten with a stick.

I never saw two snakes nearer the same size and color before, and I wonder if this kind of incident will ever happen again.

PEANUT BOLING. Mr. and Mrs. W. H. Morris entertained with a peanut boling Friday night, honoring Harriet Holleman, Judy Hollar, Ann Wall, Bonnie Wyatt and Noel Benson of Statesboro. However, several of the girls were unable to attend. Harriet was sick and we hope she is feeling fine by this time. Judy and Ann were out of town.

Those present were: Bonnie Wyatt, Noel Benson, Mr. Dan Stearns of Statesboro, Mr. George Dixon, Bennie and Charlie Dixon, Lillian Dixon, Wayne Dixon, Charles Dixon, Johnny Smith, all of Savannah, Nella Smith of Miami, Fla., James Foote, Harry Shurling, James and Willie Gene Morris, Tommy Morrison and Lillian Morris of Stilson.

After enjoying boiled peanuts, James Morris, Charles Dixon and Benny Dixon entertained the group with string music and hillbilly and gospel singing. Everyone had a nice time.

PEANUT DIGGING BEGINS HERE. Peanut digging has started today. Mr. J. C. Beasley Sr. started plowing up peanuts Monday morning. So, for the next few weeks folks here will try to save what few peanuts they have made. Some say the ones who waited until late to plant their peanut crop, won't have enough peanuts to dig. It will pay farmers who save their peanut seed to save more seed in order to get enough peanuts planted to get a stand year.

PEANUT DIGGING BEGINS HERE. Peanut digging has started today. Mr. J. C. Beasley Sr. started plowing up peanuts Monday morning. So, for the next few weeks folks here will try to save what few peanuts they have made. Some say the ones who waited until late to plant their peanut crop, won't have enough peanuts to dig. It will pay farmers who save their peanut seed to save more seed in order to get enough peanuts planted to get a stand year.

The hardwood control demonstration held on Fred Blitch's farm in the West Side community a few weeks ago is beginning to show some results.

The small trees and most of the large ones are beginning to die as a result of the various treatments. Ammate and 2, 4-D are equally effective poisons in killing hardwoods.

The methods of using either poison was more important than the poison itself. Girdling and frilling the trees in combination with poisons seem to give quicker kills. Cuts and injections are slower it seems, and treatments without poisons are not effective for complete killing of roots and tops.

It is too early to tell the complete story of this demonstration as it takes some time a year or more to die completely. It is just interesting to watch the progress of the kill.

Penicola bahia seed harvesting is progressing rapidly now with yields much better than expected. M. S. Brannen of Lee-field got over 200 pounds per acre off his young grass. Henry Blitch of West Side thinks he is getting close to 500 pounds per acre from some of his best bahia. W. Brannen south of Statesboro thinks he is getting between 300 and 400 pounds per acre on his two and one-half year-old stand. A. L. Ponte of Port Republic getting over 300 pounds per acre.

These cooperators of the Ogeechee River Soil Conservation District and many others in Bulloch County, will be helping supply the big demand for bahia grass and seed which is expected next year, and on in the future. The outlook is bright for the soil bank and the grass base crop rotations coming to the front. A recent research release from the University of Kansas gave corn yields after grass three times

Farm Bureau told of urgent need of blood and urged to aid program

BLOOD PROGRAM DISCUSSED AT NEVILLS FARM BUREAU

Blue Cross and Blue Shield health insurance is now available to Farm Bureau members in Bulloch County, W. C. Hodges, president of the county organization, reports.

This type of health insurance has been available in most of the counties adjoining the county for several years and has caused a strong demand for it here. However, a local mutual already existed that gave probably more for the money than any of the mutual programs. It did not offer one of the features demanded by members of the Farm Bureau, an existing mutual closed its operations a couple of weeks ago. The insurance commissioner would not permit two mutuals to work in the same area.

Plans are now being developed to enroll any member that desires this type of coverage prior to October, the policies will be processed during October, and the coverage will become effective as of November 1, Mr. Hodges stated.

Blue Cross and Blue Shield operate on a quarterly basis. The present quarter had already started when it was learned that the program could be offered. This makes it necessary to wait until the next quarter starts for the people. He first wants every member to have a letter from the local hospital and doctors stating just what the program offers as far as the hospital and doctors are concerned so that there will not be any possible chance for misunderstandings.

The group life insurance program is being offered this week in the West Side community and will expand to other communities as desired.

REGISTER DISCUSSES BLUE CROSS-BLUE SHIELD

Olin Lindsey, service representative of the Georgia Farm Bureau, met with Register Thursday night to discuss the Blue Cross and Blue Shield program. In enumerating the details of the operations and coverage, Mr. Lindsey pointed out that there were more than 52,000,000 people covered by the program in the United States, more than all the total number covered by all other insurance programs of any kind. Blue Cross and Blue Shield must offer the people what they want or so

Nothing takes to the road like a Chevy!

Once in a blue moon a car like this comes along—a design so advanced in performance, so beautifully balanced that it stands out above every other car on the highway.

It has a solid, sure-footed way of going that makes driving safer and more pleasant on any road. And you feel a very special sense of security in its rapid-fire responsiveness to your touch on the wheel, brakes and accelerator.

You can see that the '56 Chevy is a standout for style. But until you have driven on, you're missing the best part of the news—the fact that Chevrolet is the smoothest, solidest, most wedded-to-the-road automobile you ever possessed. Try it and see.

I am also keenly aware that the people are already overburdened with the payment of exorbitant federal income taxes; that foreign aid is costing us billions of dollars and should be reduced and eventually eliminated, and this money returned to the people in the form of lower income taxes.

I am opposed to increasing the power of the Federal Government, whatever branch, by legislation, court rulings, or edict, attempt to curtail the rights of states to regulate their own internal affairs.
